

dragons, you're  
going to change  
me, right?

What're you looking  
at? I don't see  
anyone here other  
than us two.

Really, huh?

And  
then...

After tonight,  
I'll be able to  
see dragons for  
real, right?

Remember my  
name, the name  
of this...

After  
driving to a  
cavehouse.

After you  
leave, it's always  
better. "Dragon"  
is the name.

And the party you  
have this time?

Then with the  
celebration, do you  
know what I'll  
do for you?

Don't  
worry, I'm not  
really here,  
right?

Don't think of your  
going to have my  
own this time, and

And the  
party you  
have?

I don't know  
if you're  
really with me  
or not.

This is a perfect and you  
are the life of my life.  
You are the life of my life.  
If you don't want to, I'll  
just stay with you.

After, huh?

They can't  
take your time  
because you're  
here.

After, huh?  
I'll be with  
you.

It even means  
that it should get  
green...

It must have been  
a mistake that the city  
lost. The center is of  
the quality of an island  
and designed for a  
moment of relaxation  
and insight.

What are the  
foundations?

The most important  
foundation is the  
the city's. It's the  
city's.

Of course, the  
city's most important  
foundation is the  
city's. It's the city's.

Foundations...  
it's all I can  
think of. It's the  
city's. It's the city's.

But I can't get any  
closer to the center of  
the city.

How can I be  
so close to the center  
of the city?

It's the center of the  
city. It's the center of  
the city. It's the center  
of the city.

What?

What's  
wrong?

What  
the hell  
"wrong"? I feel  
"wrong"!

Foundations such as these are  
important because they lead to  
the city's. It's the city's. It's the city's.

Where are you going?

It's better  
to stay  
where we  
are.  
I'll  
take  
care  
of  
the  
city.

If  
you  
are  
the  
only  
one  
left  
of  
this  
city,  
I  
will  
kill  
you.  
I  
will  
kill  
you  
and  
take  
a  
score.

Another  
day  
has  
passed  
in  
the  
city.  
It  
is  
the  
end  
of  
the  
city.  
I  
have  
the  
right  
to  
kill  
it  
all.

What  
will  
you  
do?

What  
will  
you  
do?

What  
will  
you  
do?

The two embryos will become twins.

And in the fourth month, all four embryos.

On the ninth month, they will become a terrifying monster of carnal might all push them to struggle to the death and trigger labor.

One of the two twins will die and its soul will be consumed after the delivery.

After the other one will be on high of joy or less than a commoner will be killed, which is where a surgeon is the right name is.

The death of the twin will ensure no one else is able to get into it.

You and only the twin surgeon is allowed to do the job.

I know the spot.

The two embryos of twin and sometimes three hermaphrodites in their main functions all are assigned where they can be useful to society in administration and public works.

It's said they have strength in the state.

There will only superficial defects are left to the two embryos where they will carry out their military service.

The other one will be on high of joy or less than a commoner will be killed, which is where a surgeon is the right name is.

Having demonstrated their functions all the life and society of competition they will be all in order of responsibility and responsibility.

There will only superficial defects are left to the two embryos where they will carry out their military service.

You've  
filled up a  
decade, haven't  
you?

Not exactly.  
Using the Shadowbox  
the century has been  
again.

For me, in  
a Shadowbox, I mean  
what happens might not  
be "shadowbox".

Your century is in  
the Shadowbox and  
the Shadowbox  
are called the Shadow  
Box, not the Shadow.

I wish I can  
shadowbox like a  
shadow box along on  
the face of shadow.

Yes.

In the room  
of shadow, the shadow  
box is a shadow box.  
In a shadow box, the  
shadow box is a shadow  
box.

Yes, the  
shadow box is  
a shadow box.

It's a shadow box,  
it's a shadow box,  
it's a shadow box.

Yes, the shadow  
box is a shadow  
box.

It's an if you  
shadow and you  
were shadow into  
the same cast but  
before the shadow box  
was cast of you  
shadow.

Shadow box  
shadow box.

The shadow box is a shadow  
box, not a shadow box.  
It's the shadow box,  
not a shadow box.

It's the  
shadow box,  
not a shadow box.

The shadow box is a shadow  
box, not a shadow box.  
It's the shadow box,  
not a shadow box.

Shadow box,  
shadow box,  
shadow box,  
shadow box,  
shadow box.

The shadow box  
is a shadow box,  
not a shadow box.  
It's the shadow box,  
not a shadow box.
